

## English

They will be producing persuasive pieces as well as entertaining and informative texts. These can be edited as many times as the children want and will showcase all of their marvellous skills. We will be using these to make assessment judgements about their writing levels.

During Careers Week the children will be discussing the necessary skills for different careers and how the skills learnt in writing learning journeys will be vital to gain roles and also in their future employment.

## Science

The children will be learning about how to look after our planet including ways to reduce energy consumption, what happens when fuel is burnt and the outcomes of COP26. They will also look at climate data and make up their minds about what they see.

As the year draws to a close, the class will review their science knowledge from the year and complete retrieval quizzes in teams.

## Drama

The moment we've all been waiting for: THE GOLD CLASS PLAY! The children are very excited about performing this. Parts will be chosen, songs will be being practised, lines will be learnt and dances will be created.

The play, 'The X Factory' will be performed in our school hall in the evening on 7th and 9th July. Once cast, please make sure your child has their costume in school for the dress rehearsal on 6th July.

## Maths

The children will be completing a range of fun investigative projects now that the basics of our maths curriculum has been taught.

Via these puzzles and challenges, the children will continue to review key concepts from the year six curriculum ready to build on this at secondary school.

## Foundation Subjects

- RE— Peace
- Music— Songs from the school production
- PSHE— Changing Me
- Computing— Tinkercad 3D modelling
- PE — Tennis/golf/dancing
