

Green Class 2026-2027

Teacher: Mrs Falshaw LSAs: Mrs Roebuck and Mrs Rice

Autumn 1- Raging Rivers

Geography

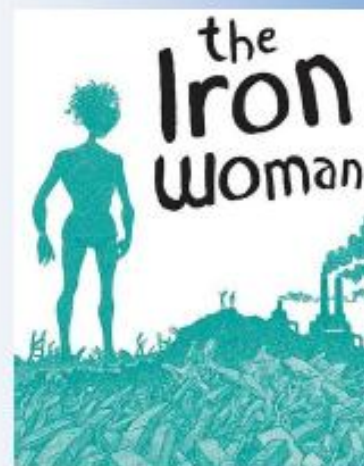

Our learning during the first half of the Autumn term will be inspired by the geography of rivers. Green class children will investigate their features, how they form, how they change and how humans use rivers.

English

Using the inspiring text 'The Iron Woman' by Ted Hughes, which is set in a river marshland environment, the children will be writing letters to the villagers to convince them that the Iron Woman is real. The children will also be writing descriptions of the last known location of the Iron Woman in order to help the police in their search for the creature. We will be looking at key grammatical skills shown within the text and the children will have the opportunity to replicate these within their own work.

During reading lessons, the children will enjoy reading and understanding a wide range of texts including poems inspired by rivers.

Maths

This term we will be focussing on the following areas of learning: place value, addition, subtraction, measure and multiplication. Please support your child by giving them plenty of opportunities at home to practise their 2, 5, 10, 3, 4 and 8 times tables and to learn their 6, 7, 9, 11 and 12 times tables.

Art

Green class will look at the skills required to tell stories through drawing. They will study some of the work of Laura Carlin & Shaun Tan, who are illustrators and authors.

RE

In RE this half term, the children will think about the concept of ritual in relation to the celebration of Sukkot in Judaism.

Science

Science learning will focus on states of matter. We will consider questions such as, how can I identify different materials based on their properties? What causes a change of state?

Spanish

Green class will learn the names of 10 instruments and develop the skills to create short phrases with the verb 'I play' plus the instrument nouns and articles/determiners

Computing

In our lessons, the children will recognise the internet as a network of networks including the WWW, and why we should evaluate online content.
